USE YOUR HEAD

2–8 players | 28-space trapezium | Most Sparks after the final round wins

1 SET UP AND PLAY

1. Open the TV host at /tv/ and show the lobby on your television.
2. Scan its QR code with each phone; choose an untaken avatar and tap Ready.
3. Each round, every player rolls once on their phone — all at once (Everyone Rolls, the default) or one at a time.
4. Land on a coloured space to CALL that category for the round's game — and host it. A later colour steals the call.
5. When everyone has rolled, the whole panel plays the round's game together.

2 WIN SPARKS

Round game: the host wins +3; any other winner +2. A host who finishes last loses one Spark (never below zero).

Applause +2. Pass Start +1; land exactly on Start +2.

LAST ORDERS: in the final round, every Spark you gain is doubled.

Showtime only — last place rolls two dice and picks one. Director's Cut: start with 2 Cues; nudge your landing by one space for 1 Cue. Win a contest or pass Start to earn 1 back (max 2).

3 THE UNDERDOG RULE

With four or more players, a mini-game or Showdown winner who started the turn 3+ Sparks behind the leader earns an extra 1 Spark. In an eight-player match, the bonus is 2 Sparks.

4 SPECIAL SPACES

Wildcard — pick the round's game, lock it so nobody can change it, and host it.

Swap Seats — exchange board positions.

Pickpocket — steal one Spark from the leader.

Brain Drain — answer in five seconds or lose one.

Stage Lift — jump across the stage to the other lift.

THE 16 MINI-GAMES

- **Tug of Wits**
- **Bid to Win**
- **Nerve**

GAME OVER

Most Sparks after the final round wins; a tie goes to a nearest-number Noggin-Off. Auto length: 12 rounds (2–5 players) or 10 (6–8) with Everyone Rolls.

PLAYING TOGETHER

Discuss team clues aloud. In Showtime, spectators can predict a Showdown winner for 1 Director Cue.
Two-player rooms skip Caption This, Majority Rules.

One TV host + one phone per player. All 16 category games use the same room.
