## USE YOUR HEAD

2–8 players | 36 spaces | First to 12 Sparks wins

## 1 SET UP AND PLAY

1. Open the TV host at /tv/ and show the lobby on your television.
2. Scan its QR code with each phone; choose an untaken avatar and tap Ready.
3. The active player may call a Headline Bet or Director’s Cut, then rolls on their phone.
4. Follow the game instructions on the TV and answer privately on phones.

## 2 WIN SPARKS

Land on a game: the player who landed is the host. Host win +2; another winner +1.

A host who finishes last can lose one Spark, but nobody goes below zero.

Pass Start +1; land exactly on Start +2.

Last-place rollers get two dice and choose one.

Director’s Cut: start with 2 Cues; shift the landing by one space for 1 Cue. Win a contest or pass Start to replenish 1 Cue (max 2).

Headline Bet: before rolling, choose to risk 1 Spark. Win your contest for +2 bonus Sparks, or lose 1 extra Spark on top of normal host penalties. No risk on a non-contest square.

## 3 THE UNDERDOG RULE

With four or more players, a mini-game or Showdown winner who started the turn 3+ Sparks behind the leader earns an extra 1 Spark. In an eight-player match, the bonus is 2 Sparks.

## 4 SPECIAL SPACES

Swap Seats — exchange board positions.

Pickpocket — steal one Spark from the leader.

Brain Drain — answer in five seconds or lose one.

Wildcard — choose the mini-game category.

Stage Lift — jump across to the other lift.

## GAME OVER

First to 12 Sparks wins Standard mode. Quick and Long modes target 8 or 16. If several reach the goal on the same turn, play a nearest-number Noggin-Off until one wins.

## PLAYING TOGETHER

The TV shows the board and results. Discuss team clues aloud. During Showdowns, spectators make Spotlight Picks during the intro. Correct picks earn 1 Director Cue (max 2), never Sparks. Two-player rooms skip Caption This, Majority Rules to avoid automatic draws.

One TV host + one phone per player. All 16 category games use the same room.
